

# NUTRIMOR

**Believe it or not, it's possible to eat plenty of food, even healthy food, and still starve your body of the nutrients it requires for real health and well-being.**

It is very rare for us to consume all the necessary vitamins and minerals our bodies need, so daily intake of key vitamins can help build and strengthen your body and provide a strong foundation for health. NutriMor's delicious, easy-to-take formula will protect your body on the inside while giving you health and energy you can appreciate on the outside.

NutriMor embraces the power of the Moringa tree, whose array of phytonutrients have been shown to have antioxidant and cholesterol<sup>†</sup>-supporting effects, in a bioavailable formula designed to supply your body with the essential vitamins, minerals and amino acids it needs. Cassia cinnamon and green tea leaf extract further enhance NutriMor's health-promoting effects by helping support already healthy

levels of glucose and triglycerides in the blood, and aiding in maintaining a healthy bodyweight.\*

### Benefiting the World

Nearly every part of the Moringa tree has value- from its nutritional uses, to water purification and agricultural enhancements. Humanitarian groups throughout the world have recognized the enormous potential of Moringa to enrich humanity and are reaching out to educate impoverished nations on the benefits of this natural resource. Moringa has the power to combat nutritional deficiencies and is drought-resistant, making it indigenous to areas such as Africa and Southeast Asia that can draw on the versatility of the tree to fight malnutrition and save millions of lives.

ITEM NO. SU74152 | Net Wt 7.1oz (200g)
